GOOD HEALTH AND
WELL-BEING

The Atmospheric Pollution

It impacts EVERYTHING

People:
- General health
- Diseases
- Death

The environment:
- Soil and water contamination
- Deterioration of buildings

The economy:
- Higher healthcare costs

and EVERYONE

35 000
Deaths caused by atmospheric pollution in Poland

40 000
Deaths caused by atmospheric pollution in France

How to prevent it?

Use public transportation
Use renewable energy sources
Reduce your consumption
Plant trees
